Ntethe James Mokoena

Software Developer | WeThinkCode | Python | Java | C# | VueJS | Qaulity Assurance
City of Johannesburg, Gauteng, South Africa

Summary

I am a highly passionate software developer with experience in Python, Java, web development, including object-oriented programming and test-driven development. I am a well organized and productive individual with a huge interest in automation testing.

When I am not coding I sometimes watch educational YouTube channels and aviation channels (JustPlanes) , also, a huge fan of Trevor Noah.
